ANTICANCER RESEARCH is an independent international forum devoted to the rapid publication of original high quality articles and reviews on all aspects of experimental and clinical oncology. Prompt evaluation of all submitted articles in confidence and rapid publication within 1-2 months from acceptance are guaranteed.

Selection of Recent Articles

Bortezomib Therapeutic Effect Is Associated with Expression of FGFR3 in Multiple Myeloma Cells. M. GUAN, L. ZHU, G. SOMLO, A. HUGHES, B. ZHOU, Y. YEN (Duarte, CA, USA; Zhejiang, China)

Utilization of a Right-handed Coiled-coil Protein from Archaeabacteria Staphylothermus marinus as a Carrier for Cisplatin. M. ERIKSSON, S. HASSAN, R. LARSSON, S. LINDER, T. RAMQVIST, H. LÖVBORG, T. VIKINGE, E. FIGGEMEIER, J. MÜLLER, J. STETEFELD, T. DALIANIS, S. ÖZBEK (Stockholm; Uppsala; Linköping, Sweden; Basel, Switzerland; Winnipeg, Manitoba, Canada; Heidelberg, Germany)

Comparison of Cell Death-inducing Effect of Novel Taxane SB-T-1216 and Paclitaxel in Breast Cancer Cells. J. KOVÁ, M. EHRLICHOVÁ, B. ĽMEJKALOVÁ, I. ZANARDI, I. OJIMA (Prague, Czech Republic; Stony Brook, NY, USA)

Conversion from Calcineurin Inhibitors to Sirolimus Reduces Vascularization and Thickness of Post-transplant Cutaneous Squamous-cell Carcinomas. A.-L. RIVAL-TRINGALI, S. EUVRARD, E. DECULLIER, A. CLAUDY, M. FAURE, J. KANITAKIS (Lyon, France)

Vessel Dilator and Kaliuretic Peptide Inhibit Ras in Human Prostate Cancer Cells. Y. SUN, E.J. EICHELBAUM, W.P. SKELTON IV, A. LENZ, H. WANG, D.L. VESELY (Tampa, FL, USA)

Pharmacological Interplay between Breast Cancer Resistance Protein and Gefitinib in Epidermal Growth Factor Receptor Signaling. K. KATAYAMA, K. SHIBATA, J. MITSUHASHI, K. NOGUCHI, Y. SUGIMOTO (Tokyo, Japan)

Please send me an invoice.

My payment is enclosed.

Please send me the following previous volumes (1-22) at 50% discount on the above rates.

Payment is enclosed. Please invoice.

(Cheques should be made payable to J.G. Delinassios, Athens, Greece)

Please send me information about the International Institute of Anticancer Research (IIAR).

Please send me the following previous volumes (1-22) at 50% discount on the above rates.

Please enter a Subscription to IN VIVO for Volume 23 (2009).

Annual subscription rates (2009): Institutional, Euro 855.00 - online; Euro 875.00 - print; 890.00 - print & online; Personal, Euro 452.00 - online; Euro 472.00 - print; Euro 490.00 - print & online. Prices include rapid delivery and insurance.

Please enter my personal combined 2009 subscription to IN VIVO (Volume 23), ANTICANCER RESEARCH (Volume 29) and CANCER GENOMICS & PROTEOMICS at Euro 300.00 (print & online).

Please enter my personal subscription to IN VIVO 2009 (Volume 23) at the special Author’s rate of Euro 216.00 (print or online); Euro 300.00 (print & online).

Please enter my personal subscription to IN VIVO for Volume 23 (2009).

Payment is enclosed. Please invoice.

(Cheques should be made payable to J.G. Delinassios, Athens, Greece)

Please send me information about the International Institute of Anticancer Research (IIAR).

Please send this order to IN VIVO, Editorial Office, IIAR, 1st km Kapandritiou-Kalamou Rd., Kapandriti, P.O. Box 22, Attiki 19014, Greece. Tel & Fax: +30-22950-53389, e-mail: journals@iiar-anticancer.org

Special 2009 Offers to Authors of IN VIVO

(These offers are open to all authors of articles published in IN VIVO 1987-2009 on a basis of priority and availability. Effective from January to December 2009).

Please complete and send this order form to:
ANTICANCER RESEARCH Editorial Office, International Institute of Anticancer Research,
1st km Kapandritiou-Kalamou Rd., Kapandriti, P.O. Box 22, Attiki 19014, Greece.

Special Subscription Order Form 2009

☐ I am one of the authors of the article published in IN VIVO Vol. ............, pp. ........., year .........

☐ Please enter my personal subscription to IN VIVO 2009 (Volume 23) at the special Author’s rate of Euro 216.00 (print or online); Euro 300.00 (print & online).

☐ Please send me previous Volume No(s) ................. at Euro 108.00 per volume.

☐ Please enter my personal combined 2009 subscription to IN VIVO (Volume 23), ANTICANCER RESEARCH (Volume 29) and CANCER GENOMICS & PROTEOMICS at Euro 755.00 (print or online); Euro 972.00 (print & online).

☐ My payment is enclosed.

☐ Please send me an invoice.

(Prices include rapid delivery and insurance. Cheques should be made payable to J.G. Delinassios, Athens, Greece).

Contents

Experimental Studies

Special 2009 Offers

• 1987-2008
• 22 volumes
• over 14,400 pages
• over 2,290 original articles and reviews
• over 9,100 authors
• Special issues
• Conference abstracts
• Author-Subject Indexes

International Journal of Experimental and Clinical Pathophysiology and Drug Research

Volume 29, Number 6, November-December 2007

Contents continued on the back cover

Author-Subject Indexes

ñ Conference abstracts
ñ Special issues
ñ 1987-2008
ñ over 9,100 authors
ñ over 22 volumes
ñ over 14,400 pages
ñ 22 volumes
Instructions to Authors

General Policy. IN VIVO is a multidisciplinary journal designed to bring together high quality original works and reviews on experimental and clinical biomedical research within the framework of comparative physiology and pathology. The focus of the journal is the publication of works on: (a) experimental development and application of new diagnostic procedures; (b) pharmacological and toxicological evaluation of new drugs and drug combinations; and (c) development and characterization of models for biomedical research. A main aim of IN VIVO is to ensure the prompt publication of accepted articles, generally within 1-2 months from final acceptance. Manuscripts will be accepted on the understanding that they report unpublished original works that are not under consideration for publication by another journal, and that they will not be published again in the same form. On publication of a manuscript in IN VIVO, which is a copyrighted publication, the legal ownership of all published parts of the manuscript passes from the Author(s) to the Journal. All material submitted to IN VIVO will be subject to review, when appropriate, by two members of the Editorial Board. The Editors reserve the right to improve manuscripts in terms of grammar and style. The use of animals in biomedical research should be under the careful supervision of a person adequately trained in this field and the animals must be treated humanely at all times. The Guiding Principles in the Care and Use of Animals approved by the Council of the American Physiological Society must be followed. The journal acknowledges that authors of NIH funded research retain the right to provide a copy of the final manuscript to the NIH four months after publication in IN VIVO for public archiving in PubMed Central.

Manuscripts. Two types of papers may be submitted: (i) papers containing completed original work, and (ii) review articles concerning fields of recognizable progress. Papers should be written in clear, concise English. Spelling should follow that of the "Oxford English Dictionary". Ideally, manuscripts should not exceed fourteen (14) pages (approx. 250 words per double-spaced page) corresponding to four (4) printed pages. Papers exceeding four (4) printed pages will be subject to excess page charges. All manuscripts should be divided into the following sections: (a) First page including the title of the presented work, full names and full postal addresses of all Authors, name of the Author to whom proofs are to be sent, key words and an abbreviated running title; (b) Abstract not exceeding 150 words, organized according to the following headings: Background - Materials and Methods or Patients and Methods - Results - Conclusion; (c) Introduction; (d) Materials and Methods or Patients and Methods; (e) Results; (f) Discussion; (g) Acknowledgements; and (h) References. All pages must be numbered consecutively. Footnotes should be avoided. Review articles may follow a different style according to the subject matter and the Author’s preference. Review articles should not exceed 35 pages (approximately 250 words per double-spaced page) including all tables, figures and references.

Figures. All figures (whether photographs or graphs) should be clear, high contrast, glossy prints of the size they are to appear in the journal: 8.00 cm (3.15 in.) wide for a single column; 17.00 cm (6.70 in.) for a double column; maximum height: 20.00 cm (7.87 in.). Graphs must be submitted as photographs made from drawings and must not require any artwork, typesetting, or size modifications. Symbols, numbering and lettering should be clearly legible. The number and top of each figure must be indicated on the reverse side. Original karyotypes and photographs should be provided wherever possible, rather than photographic copies. A charge will be made for a colour plate. Figures should be numbered with Arabic numerals and include a short title, and legend if appropriate.

Tables. Each table should be submitted on a separate page, double-spaced. Tables should be numbered with Roman numerals and should include a short title and legend if appropriate.

Nomenclature and Abbreviations. Nomenclature should follow that given in "Chemical Abstracts". Standard abbreviations will be preferable. If a new abbreviation is used, it must be defined on first usage.

Submission of Manuscripts. You can send your article via e-mail to journals@iiar-anticancer.org, indicating in which journal you wish to be submitted (ANTICANCER RESEARCH, IN VIVO or CANCER GENOMICS & PROTEOMICS). The text should be sent as a Word document (*.doc) attachment. Tables, figures and cover letter can also be sent as e-mail attachments. OR You can send the manuscript of your article via regular mail in a usb stick, CD or floppy disk (including text, tables and figures) together with three hard copies of your manuscript to the following address: Dr. J.J. Delinassios, International Institute of Anticancer Research (IIAR), Editorial Office of ANTICANCER RESEARCH, IN VIVO and CANCER GENOMICS & PROTEOMICS. 1st km Kapandritiou-Kalamou Road, P.O. Box 22, GR-19014, Kapandriti, Attiki, Greece. Submitted articles will not be returned to Authors upon rejection.

Galley Proofs. Unless otherwise indicated, galley proofs will be sent by e-mail to the first-named Author of the submission. Corrections of galley proofs should be limited to typographical errors.

Reprints. Reprints may be ordered after the acceptance of the paper.

* Current Role and Future Perspectives of Hyperthermia for Prostate Cancer Treatment. G. BARONZIO, A. GRAMAGLIA, G. FIorentini (Monza, Empoli, Italy) ............................................................................. 143

Evaluation of Quality of Life of Patients Submitted to Cytoreductive Surgery and Hyperthermic Intraperitoneal Chemotherapy for Peritoneal Carcinosis of Gastrointestinal and Ovarian Origin and Identification of Factors Influencing Outcome. A. MACRÌ, I. MAUGERI, G. TRIMARCHI, R. CAMINITI, M.C. SAFFIOTI, S. INCARDONA, A. SINARDI, S. IRATO, G. ALTAVILLA, V. ADAMO, A. VERSACI, C. FAMULARI (Messina, Italy) ........................................................................................................................ 147

Associations of Lipoprotein Lipase S447X and Apolipoprotein E Genotypes with Low-density Lipoprotein Subfractions in Turkish Patients with Coronary Artery Disease. H. YILMAZ AYDOGAN, S. ISBIR, O. KURNAZ, U. GORMUS, T. ISBIR (Istanbul, Turkey) .......................................................................................... 155

Congenital Cholesteatoma Associated with Blue Eardrum. C.H. JANG, Y.-B. CHO, Y.H. KIM, P.-C. WANG (Gwangju; Iksan, South Korea; Taipei, Taiwan, ROC) .................................................................................................................. 163

A Primary Large Cholesterol Cyst of the Mastoid Presenting with Dysgeusia. C.-H. JANG, Y.H. KIM, Y.B. CHO (Gwangju; Iksan, South Korea) ..................................................................................................................................... 167

A Randomized Study of Chemotherapy Versus Biochemotherapy with Chemotherapy plus Aloe arborescens in Patients with Metastatic Cancer. P. LISSONI, F. ROVELLI, F. BRIVIO, R. ZAGO, M. COLCIAGO, G. MESSINA, A. MORA, G. PORRO (Monza; Lecco, Italy) ................................................................. 171

Platelet GP IIIA Polymorphism HPA-1 (PLA1/2) Is Associated with Hypertension as the Primary Cause for End-stage Renal Disease in Hemodialysis Patients from Greece. T. CHIRAS, E.D. PAPADAKIS, A. KATOPODI, E. CHATZIANESTI, K. FOURTOUNAS, S. PAPAKONSTANTINO, I. THEODOROPOULOS, A. DAKOURAS, N. ZEREFOS, D. VALIS, H. TZANATOS-EXARCHOU (Athens, Greece) ........................................................................................................... 177

Antibacterial Effect of Octylcyanoacrylate against Ciprofloxacin-resistant Pseudomonas aeruginosa Isolates from Patients with Chronic Suppurative Otitis Media. C.H. JANG, H. PARK, Y.B. CHO, C.H. CHOI, C. SONG (Gwangju, South Korea) ........................................................................................................................... 183

Role of Explorative Laparoscopy to Evaluate Optimal Candidates for Cytoreductive Surgery and Hyperthermic Intraperitoneal Chemotherapy (HIPEC) in Patients with Peritoneal Mesothelioma. B. LATERZA, S. KUSAMURA, D. BARATTI, G. DANIELA OLIVA, M. DERACO (Milan; Messina, Italy) ...... 187

Huge Cholesterol Granuloma of the Middle Ear Extending to Middle Cranial Fossa. C.H. JANG, Y.B. CHO (Gwangju, South Korea) .............................................................................................................................. 191

* Reviews (pages 1, 123, 143)
Electrochemotherapy Compared to Surgery for Treatment of Canine Mast Cell Tumours. V. KODRE, M. CEMAZAR, J. PECAR, G. SERA, A. CÔR, N. TOZON (Ljubljana, Slovenia) .................................................. 55

A Mastic Gum Extract Induces Suppression of Growth of Human Colorectal Tumor XenorafTs in Immunodeficient Mice. K. DIMAS, S. HATZIANTONIOU, J.H. WYCHE, P. PANTAZIS (Athens, Greece; Oklahoma City, OK, USA) .............................................................................................................................. 63

Chondroitin Sulfate A Regulates Fibrosarcoma Cell Adhesion, Motility and Migration through JNK and Tyrosine Kinase Signaling Pathways. E. FTHENOU, F. ZONG, A. ZAFIROPOULOS, K. DOBRA, A. HJERPE, G.N. TZANAKAKIS (Heraklion, Greece; Stockholm, Sweden) .............................................................................................................................. 69

Adenovirus-mediated Thymidine Kinase Gene Therapy Induces Apoptosis in Human Epithelial Ovarian Cancer Cells and Damages PARP-1. D.G. KIEBACK (Aue, Germany; Maastricht, The Netherlands) .............. 77

Jejunal Pouch Reconstruction but not Preservation of Duodenal Passage after Total Gastrectomy Reduces Plasma Cholecystokinin and Pancreatic Polypeptide Long Term in Pigs. U. SMEDH, L. HANSSON, R. EKMAN, T. ZILLING (Lund; Gothenburg; Varberg, Sweden) .............................................................................................................................. 93

Total Gastrectomy Causes a Sustained, Long-term Elevation of Somatostatin in Plasma, Independent of the Mode of Reconstruction in Pigs. U. SMEDH, L. HANSSON, R. EKMAN, T. ZILLING (Lund; Gothenburg; Varberg, Sweden) .................................................. 99

Clinical Studies

11C-Methionine vs. 18F-FDG PET in Soft Tissue Sarcoma Patients Treated with Neoadjuvant Therapy: Preliminary Results. G. GHIGI, R. MICERA, A.M. MAFFIONE, P. CASTELLUCCI, S. CAMMELLI, I.
